

CHORUS FOUNDATION 2017 GENERAL OPERATIONS APPLICATION

Introduction

On behalf of the Chorus Foundation (the Foundation), Mott Philanthropic is accepting applications that describe organizations and projects that advance a just transition to a regenerative economy in the United States. Prior to submitting an application, please review the [Foundation's website](#) and the [frequently-asked questions \(FAQ\)](#) about the Foundation's grant-making process.

Below is information about the Foundation, the review process, and funding requirements. We recommend reviewing and collecting all the necessary information to complete this form before beginning. We also ask that you track the total amount of time it takes you to complete this application

Any organizations wishing to be considered for a grant from the Foundation must submit the appropriate materials through the Foundation's web portal.

Foundation Mission and Values

The Chorus Foundation works for a just transition to a regenerative economy in the United States. The Foundation supports communities on the front lines of the old, extractive economy to build new bases of political, economic, and cultural power for systemic change.

We envision an economy in which everyone can find meaningful work; an environment in which everyone has access to clean air, clean water, and a stable climate; and a democracy in which everyone has a say.

We believe that:

- The climate crisis is embedded in a larger ecological crisis, which is in turn inextricably linked to parallel crises within our political and economic systems. Communities of color and working class communities are on the front lines of these crises, and they are already experiencing disproportionate impacts.
- To respond to these crises, we must reclaim our democracy and move from the extractive economy to an economy that is restorative of people, place, and planet. The economic alternatives we require are already possible, but they are unsung and under-resourced.
- As an essential step in this process, we must eliminate the fossil fuel industry's undue influence on our democracy, and accelerate the end of the extraction, export, and use of fossil fuels. This particular transition is inevitable, but we will have to work hard to ensure that it is both timely and just.
- We will not be able to address the climate crisis without a broad-based social movement that demands deep systemic change. We have been inspired by the work happening in local communities across the country, and we believe that their leadership is essential to the collective future that we all want to see.

Funding Requirements

Grants are paid in annual installments. For two-year grants, the second grant payment will be paid following the review of an interim report on the first year of activities that demonstrates satisfactory progress on the goals stated in the proposal, continued overall fiscal and organizational health, and continuity of leadership.

All organizations will be required to submit a final report within one month after the end of the grant.

For all reports, your organization is required to complete both a narrative email that will be distributed to all other Chorus Foundation grantees and an online report submitted through this grant system.

In addition to these reports, site visits with Foundation trustees and Mott Philanthropic staff may also be requested. If the Foundation is funding an event, such as a meeting or conference, please ensure that [Cuong Hoang](#) is aware of the event dates, should a representative of the Foundation wish to attend.
